CAREER OBJECTIVE

Diploma Computer Engineering student with hands-on experience building full-stack web applications, AI-powered products, dashboards and practical software systems. Comfortable across frontend, backend, databases, REST APIs and modern developer tools. Seeking an entry-level software, web development or IT role where I can contribute to real products and continue growing as a developer.

EDUCATION

Yashwantrao Bhonsale Institute of Technology, Sawantwadi | Diploma in Computer Engineering (K-Scheme) | 2024–2027 | Current: 80%
Kalsulkar English School | SSC | Passed 2024 | 72.60%

TECHNICAL SKILLS

Programming	C, C++, Java, Python, JavaScript
Frontend	HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Vite, Responsive Design
Backend	Node.js, Express.js, REST APIs
Database	SQL, MySQL, MongoDB, Firebase
Cloud / Tools	AWS Fundamentals, Docker, Linux, Git, GitHub, Postman, VS Code
CS Fundamentals	OOP, DSA, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Full Stack Developer Intern | *Softmusk, Sawantwadi* | 2026

- Worked on responsive web applications using React.js and Node.js.
- Practiced frontend/backend integration, REST APIs, database-driven features and debugging.
- Collaborated with mentors and followed practical software development and SDLC workflows.

BUILT PROJECTS

- Studify** — AI-powered Student Operating System. Built a student-focused platform covering learning, skills, opportunities and career workflows.
- College NOC Management System** — College workflow management system. Built a digital workflow for NOC requests and approvals.
- StartupIQ** — AI Startup Operating System. Built an AI-driven platform for idea validation, market research and founder execution workflows.
- Cybersecurity Toolkit** — Security toolkit. Built practical cybersecurity utilities and security-focused learning workflows.
- React IoT Dashboard** — IoT monitoring dashboard. Built a React-based real-time dashboard for monitoring device/sensor data.
- ProductScope AI** — AI Product Research Platform. Built an AI-focused product research application with recommendation and data-visualization workflows.

CERTIFICATIONS & ACHIEVEMENTS

Full Stack Web Development • DSA • React JS • Power BI • SQL • MS-CIT • Internship Completion • Saylor University CS207: Fundamentals of Machine Learning
NCC Cadet • Active GitHub contributor • Built multiple full-stack and AI-focused applications • Participated in Microsoft & Google technical learning events
